TODAY & TOMORROW

RUSH — TIME DATED ADDRESS CORRECTION REQUESTED

The UCSF Staff Career Education Day has been postponed due to the current budget cuts. At the present time a date has not been set, however the Personnel Department would appreciate any suggestions in the planning of the future Staff Career Education Day. Please contact Sandy Coleman, Personnel Department, Room U-12.

A special program on "Polyamines as Targets for Chemotherapy" will be held on Saturday, January 23 in HSW 300, 8:30 a.m. to 5 p.m.

Sponsored by the Northern California Cancer Program, the program features UCSF's Laurence J. Marton, professor of Laboratory Medicine and Neurosurgery, and Victor A. Levin, professor of Neurosurgery, Pharmaceutical Chemistry and Pharmacology, as well as experts from SUNY at Stony Brook, University of Washington, Penn State and the Merrell Research Center in Cincinnati.

The program is one of two all-day scientific meetings. The second, "Cancer Drug Resistance," will be held on May 15.

For registration information contact Victor Levin, HSW 783, x3878 or x2966.

Langley Porter's Childrens' Unit is looking for puzzles, games, toys, yarn and fabric scraps. If you would like to donate these usable items to be enjoyed by children 3 to 12 years of age, contact Danita Sorenson, x77-246 or Tim Cox, x77-240.

All LPPI units are in need of men's, women's and children's clothing, including shoes, coats, underclothes and shirts. If you would like to donate, contact Dale Houston, x77-427.

CONTINUING EDUCATION

MEDICINE

Principles of Epidemiology. Mission College, Santa Clara. Jan. 20.

5th Annual Infectious Diseases in Clinical Practice. Snowmass, Col. Jan. 23-30.

Primary Care: Current Management of Common Office Problems. Snowmass, Col. Jan. 25-29.

For further information call x4251.

RADIOLOGY

Computed Tomography for Technologists. Sir Francis Drake Hotel, S.F. Jan. 23 & 24.

Interventional Radiology & Diagnostic Imaging Modalities. Jan. 25-29. Fairmont Hotel, S.F.

Diagnostic Radiology Seminars. Waiohai Hotel, Kauai, Hawaii. Jan. 30-Feb. 6.

For further information call 666-5731.

OBSTETRICS & GYNECOLOGY

Advances in Maternal & Fetal Medicine. Ski/Conference Center, Park City, Utah. Jan. 30-Feb. 6.

For further information call 666-2639.

DENTISTRY

CPR. Jan. 16.

Periodontology. Jan. 23.

Oral Pathology. Jan. 29.

Medical Emergencies. Feb. 6.

HEALTH SCIENCES

Assessing Community Needs of the Functionally Impaired Elderly. Jan. 15 & 16.

Herpes Simplex: Clinical Practice & Research (for health practitioners). Cole Hall. Jan. 16.

Herpes Simplex: Clinical Practice & Research (for lay public). Cole Hall. Jan. 17.

Legal & Ethical Issues in Research with Human Subjects. Jan. 22 & 23.

Meets in the lobby of Medical Sciences unless otherwise noted. For further information call x3904.

NURSING

Cardiopulmonary Resuscitation and Much, Much More. N 517. Jan. 16 & 17.

For further information call x1817.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the period January 16-29, will be **Tuesday, January 5, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., extension 1541 or 2557.

Nobel Laureate D. Carleton Gajdusek has been appointed the 1982 Hitchcock Professor. He will present the lecture "Genetic, Toxic and Deficiency Diseases in Isolated Populations," on Tuesday, January 19 in Cole Hall at 3 p.m.

Gajdusek is chief of the Central Nervous System Studies Laboratory, National Institute of Neurological and Communicative Diseases and Stroke, NIH. He shared the 1976 Nobel Prize for Physiology and Medicine for his work with Kuru, a chronic degenerative disease shown to be a slow virus infection. Kuru has an incubation measured in years and is always fatal.

Gajdusek will be on the UC-Berkeley campus January 11, 13 and 18. His lecture at UCSF is coordinated by the Graduate Division.

The Hitchcock Endowment Fund was established by the late Charles M. Hitchcock in 1885 for "free lectures upon scientific and practical subjects." It was greatly enlarged in 1930 by a bequest from his daughter, Lillie Hitchcock Coit.

Elwood V. Jensen, PhD, one of the world's outstanding authorities on hormone receptor studies in human malignancy and the application of steroid hormone binding, has been chosen the Sokolow Visiting Scientist for 1982.

Jensen will be on campus the week of January 25 and will deliver his major lecture, "Estrogen Receptors: New Approaches to Old Problems," Monday in Cole Hall at 4 p.m. He also will present Medicine Grand Rounds, "Hormone Dependency in Breast Cancer" on Wednesday in Cole Hall at 10:30 a.m. and a seminar at UC-Berkeley for the Department of Biochemistry on Thursday.

Jensen is the Charles Huggins Professor of Biological Sciences and director of the Ben May Laboratory for Cancer Research at the University of Chicago Cancer Research Center. He won the prestigious Kettering Prize from the General Motors Cancer Research Foundation and the Golden Plate Award from the American Academy of Achievement in 1980. In 1981 he received the Scientist of the Year Award from the Chicago Chapter of the ARCS Foundation and the National Academy of Clinical Biochemistry Award. He recently concluded a term as president of the Endocrine Society.

Vol. 8 No. 1, Jan. 1-15, 1982

JANUARY 1–15, 1982

UCSF
University of California, San Francisco
. . . A Health Sciences Campus

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho, Urol.; Alphonse J. Palubinskas, Radiol. 4th fl. Moffitt Solarium. 4:30-6 p.m.

CANCER SUPPORT SERIES: *Sexuality & the Cancer Patient.* Sponsored by the S.F. Regional Cancer Foundation. Held at Health Center #5, 1351-24th Ave. 6:30-8 p.m. Free.*

5 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th 6th fl. A. 8 a.m.

OB/GYN GRAND ROUNDS: *Preoperative Laboratory Tests for the Healthy Surgical Patient.* Michael Roizen, Anes. S 1364. 9 a.m.

MEDICAL HOUSE STAFF PULMONARY CONFERENCE. M 989. Noon.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

SING YOUR STRESS AWAY SERIES. The UCSF campus community & friends are invited to join School of Nursing's Carol Hardgrove & Beverly Hall in a sing-along. For further information contact Linda Civitello, x3206. N 717 B. Noon. Free.*

ANATOMY SEMINAR: *Appearance & Distribution of Neuronal Cell Surface & Synaptic Vesicle Antigens in the Developing Rat Superior Cervical Ganglion.* HSE 1309. Noon.

BROWN BAG LECTURES: *How to Avoid Being a "Workaholic" and Achieve Peak Performance.* Charles Garfield, Psychr. For further information call x4394. HSW 303. Noon. Free.*

ORAL BIOLOGY SEMINAR: *Sucrose in the Dynamics of the Carious Process.* Ernest Newbrun, Oral Bio. S 214. 1-2 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Recent Studies on DNA Supercoiling & DNA Topoisomerases.* James C. Wang, Biochem. & Molecular Bio., Harvard. HSW 302. 4 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PEDIATRIC UROLOGY: *Embryology GU Tract.* Emil A. Tanagho, Urol. Moderated by Tanagho & Carolyn Piel, Ped. M 460. 4:30-6 p.m.

PATHOLOGY GRAND ROUNDS. *Management of Soft Tissue Tumors.* Richard L. Kempson, Path. & Surg. Path., Stanford. HSW 508. 5-6 p.m.

7 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Pathology of Nerve Damage in Glaucoma.* Donald Minckler, Ophthal. Preceded by *Patient Exams & Discussions: External Disease.* H. Bruce Ostler, PF. S 214. Exams & discussions at 8 a.m. Rounds at 9:15 a.m.

PEDIATRIC GRAND ROUNDS: *Topics & speakers to be announced.* S 664. 8:30 a.m.

OCCUPATIONAL MEDICINE GRAND ROUNDS: *Occupational Laser Hazards.* Edwin S. Beatrice, Ocular Hazards, LAIR. A 455. Preceded by *Clinical Case Presentation: Laser Injury.* Case presentation at 8 a.m. Rounds at 9 a.m.

COLE HALL CINEMA: *Tess.* Children under 14 $1; UCSF students & MU members $1.50; general $2. Cole Hall. 5:45 p.m.*

PRIMARY CARE ROUNDS: *Alkylosing Spondylitis & Reiter's Syndrome.* James Rosenbaum, Med. A 455. 4:30 p.m.

BAY AREA NUCLEAR MEDICINE CONFERENCE. *Update in Nuclear Gastroenterology.* Robert Standainik, UCD. HSW 303. 7 p.m.

8 FRIDAY

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

PRIMARY CARE LECTURE SERIES: *Ambulatory Assessment & Management of Diabetes, Type 1 and Type 2.* Nancy Bohannon, Metabolic Steroid Lab. A 455. 10 a.m.-noon.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Interfacial Transfer Kinetics & Membrane Transport.* Richard Guy, Pharm. & Pharm. Chem. S 664. 11 a.m.

COLE HALL CINEMA: *Tess.* Children under 14 $1; UCSF students & MU members $1.50; general $2. Cole Hall. 8 p.m.*

9 SATURDAY

PLASTIC SURGERY CONFERENCE. A 125, VAMC. 7:30 a.m.

ANESTHESIOLOGY GRAND ROUNDS. HSW 303. 8 a.m.

ORTHOPAEDIC GRAND ROUNDS. Clinical Assembly, 3rd fl., Naval Regional Med. Cntr., Oklnd. 8-9 a.m.

SURGERY GRAND ROUNDS. Cole Hall. 8:30 a.m.

UROLOGY GRAND ROUNDS: *Pediatric Urological Tumors.* Arthur Ablin, Ped. Preceded by *Deaths & Complications Reports & Selected Cases* and *Clinical Presentations: Progressive Ureteropelvic Junction Obstruction in Adults.* Irving Katz, Urol. Moderated by Richard Williams, Urol., VAMC, HSW 300. Selected cases at 8:30 a.m. Clinical presentations at 9:15 a.m. Rounds at 9:45 a.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Topic to be announced.* John Roth. HSW 302. 4 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 6 p.m.

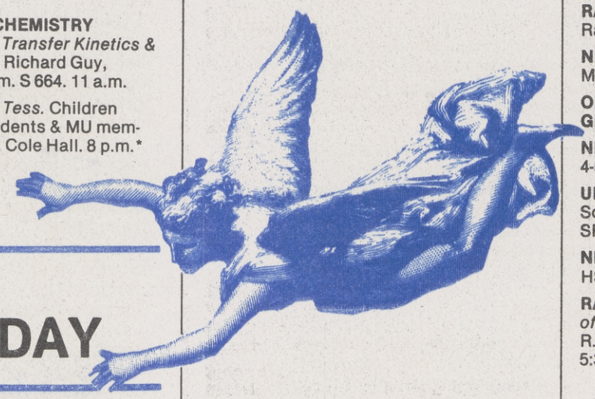
13 WEDNESDAY

DERMATOLOGY GRAND ROUNDS: *The Laser in Dermatology.* Plastic surgeon Donald Brown. HSW 301. 8 a.m.

ENDOCRINE GRAND ROUNDS: *Insulin Release & Diabetes Mellitus.* John Karam, Med.; Gerold Grodksy, Biochem. LPPI Aud. 9 a.m.

MEDICINE GRAND ROUNDS: *The Sodium Pump in Health & Disease.* David G. Warnock, Med. *Hypoglycemia.* Marvin D. Siperstein, Metabol., VAMC. Cole Hall. 10:30 a.m.-noon.

PSYCHIATRY GRAND ROUNDS: *Topics & speakers to be announced.* HSW 301. 11 a.m.-12:30 p.m.



BROWN BAG LECTURES: *Energy from Heaven & Earth.* Edward Teller, UC-Berkeley & Hoover Inst. For further information call x4394. HSW 303. Noon. Free.*

ANATOMY SEMINAR: *Cytoplasmic Localizations in the Amphibian Egg.* John Gerhart, Molecular Bio., UC-Berkeley. HSE 1309. Noon.

* — open to the public.

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Contact Bob Steele, 821-8814 for topics & speakers.* Surg. Amphitheatre, Bldg. 1, 3rd fl. 8:30 a.m.

MOUNT ZION GERIATRIC CONFERENCE: *Geriatrics & the Dying Patient.* Steven Schroeder, Gen. Med. Herbst Hall, Mount Zion. Noon.

MEDICAL HOUSE STAFF CARDIOLOGY CONFERENCE: *Cardiac Catheterization.* Bruce Brundage, CVRI. M 989. Noon.

PRIMARY CARE ROUNDS: *Anemia.* Stephen McPhee, Med. A 455. 4:30 p.m.

DIDACTIC LECTURES IN NEURORADIOLOGY: *Physics.* Robert Gould, Radiol. S 664. 12:05-1 p.m.

NEURO-ONCOLOGY TUMOR BOARD. M 372. 12:30-1:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY ROUNDS. HSW 303. 4-5 p.m.

UROLOGY JOURNAL CLUB. Richard Schmidt, Urol.; Jack W. McAninch, Urol., SFGH. M 460. 4:30-6 p.m.

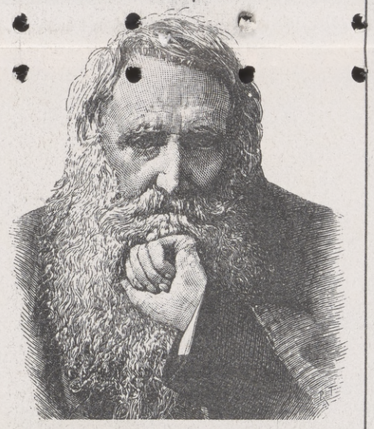
NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *The Role of CT & Ultrasound in Acute Pancreatitis.* R. Brook Jeffrey, Radiol., SFGH. HSW 303. 5:30-6:30 p.m.

15 FRIDAY

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

PRIMARY CARE LECTURE SERIES: *Patient Non-Compliance: How to Cope With It.* Steven Schroeder, Med. & Health Policy Studies. *Ambulatory Assessment & Management of Arthritis.* Wallace Epstein, Robert Wood Johnson Clin. Scholars Prog. A 455. 10 a.m.-noon.



THURSDAY 7

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Contact Bob Steele, 821-8814 for topics & speakers.* Surg. Amphitheatre, Bldg. 1, 3rd fl. 8:30 a.m.

SATURDAY 9

UROLOGY GRAND ROUNDS. Rm. 3A18. 8:30 a.m.

TUESDAY 12

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Immunizations: Current Concepts.* Moses Grossman, Ped.; J. Chin, State Dept. Hlth. Carr Aud. 8:30 a.m.

MEDICINE GRAND ROUNDS: *The Hyperlipidemias .* Thomas Bersot, Med., Gladstone. Carr Aud. 11:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Behavioral Toxicology–A New Science.* Rodney Beard, Prev. Med., Stanford. Carr Aud. 5:15-6:30 p.m.

THURSDAY 14

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *For topics & speakers contact Bob Steele, 821-8814.* Surg. Amphitheatre, Bldg. 1, 3rd fl. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Herpes Infection in Pregnancy.* Anne S. Yeager, Ped., Stanford. Carr Aud. 12:30-1:30 p.m.

NEWS BRIEFS

The third in a series of Community Health Science Lectures will be held on Wednesday, January 27 in the LPPI Auditorium from 7:30 to 9 p.m. Robert Langridge, professor of Pharmaceutical Chemistry and director of the Computer Graphics Laboratory will present "Computer Images of Proteins and DNA — A Layman's Introduction."

The lecture will be illustrated with slides, a research film and extracts from the *Today Show* and *Evening Magazine* showing the Computer Graphics Laboratory.

The series is free, open to the general public, and sponsored by the Office of Public Service Programs and the Committee on Arts and Lectures. For further information contact Vida Labrie, senior planner for the series, x3206.

SFGH is coordinating a federally-funded Teenage Pregnancy and Parenting Project (TAPP), sponsored by a number of public and private agencies. In October, the U.S. Department of Health Services, Office of Adolescent Pregnancy Programs, awarded first-year project funding of $350,000 to the Family Service Agency of S.F., a private non-profit organization. Co-sponsors with the Family Service Agency are UCSF/SFGH, the S.F. Department of Social Services, S.F. Health Department, S.F. Unified School District, Children's Home Society and S.F. Teen Parent Coalition.

TAPP will coordinate services for pregnant teens, fathers and extended families. Services include health care referral, adoption counseling, educational support, job counseling and day care referral. UCSF/SFGH will provide medical care for some teens and their children; others will continue to see private physicians.

Amy Williams is director of the project based in the north wing of Building 80. For further information call 821-5340.

Minority managers, supervisors and senior employees are invited to get acquainted at a reception Thursday, January 14 from 3 to 5 p.m. at University House.

The purpose of the reception is to discuss formation of a network of successful minority professionals at UCSF who can provide interpretation, clarification and support regarding the UCSF system for other minority employees to help them succeed in their jobs.

The network is sponsored by the CARE (Cultural and Race Relations Education) program, under the direction of Marie Simmons.

A training program is planned for network members in the concepts and principles of the CARE Program. Orientation for the training program will be held in A 44, Thursday, January 21 from 3 to 5 p.m. For further information contact Marie Simmons at x1934.

UCSF's outdoor recreation program, Outdoors Unlimited, maintains a cabin in South Lake Tahoe just five minutes from Heavenly Valley. The cabin is a modern home with three bedrooms, two baths, a fireplace and a fully equipped kitchen, and is available for rental weekdays, December to March. The cabin can sleep 14 comfortably.

Rental rates are $9.50 per person per night, $45 minimum per rental. There is an additional $50 cleaning deposit. The renting group must include at least one UCSF student, faculty or staff member.

In addition, Outdoors Unlimited provides weekend ski touring trips to cabins in Lassen, Yosemite, South Lake Tahoe and Donner every weekend through March. These trips include a volunteer to provide beginning cross country ski instruction to those interested. The fee is $14.50 and includes Friday and Saturday night lodging.

To register for the mid-week cabin or the weekend trips, visit the Outdoors Unlimited Center, 24 Kirkham, weekdays, 11:30 a.m. to 1:30 p.m. and 4 to 6 p.m. or call x2078 or x1800.

Two new research units have been added to the Gladstone Foundation Laboratories at SFGH.

Under the direction of John Taylor, a molecular biology unit studies the regulation of protein synthesis and combines the basic physiological and biochemical approaches in modern molecular biology.

Taylor received his PhD in Biochemistry from Vanderbilt in 1970. His research concerns the expression of plasma proteins and the molecular biology of apoprotein and lipoprotein metabolism.

Several investigators comprise the new unit including: John McLean of New Zealand, Nabil Elshourbagy of Egypt, Chikafusa Fukazawa of Japan and research associate Dennis Hirsch.

David Phillips heads a new platelet biochemistry and thrombosis unit which is expanding the area of thromboatherosclerosis. The new program focuses on basic platelet biochemistry and will soon study the relations between the arterial wall, platelets and thrombus formation.

Phillips received his PhD in Biochemistry from USC. Joining him in the new unit are Joan E.B. Fox, Lisa Jennings, Mark Kunicki, Anne Baughan and Clifford Reynolds.

The Long Hospital/Moffitt Modernization project continues. Directly north of the east wing of Moffitt there will be excavation, grading and preparing of foundations. Jackhammering will continue for some time from 8 a.m. to noon and large vehicles, graders and concrete work will continue to produce noise and fumes in this area. Employees are asked to close all windows on the north side of the east wing and east side of the north wing during this time to keep out the noise and fumes.

The UCSF Public Service Programs Directory is once again being updated. The directory is an impressive listing of the public service contributions UCSF makes to the local community.

Any department or unit that has not received a survey form should contact David Bracker at x3206. All 1981 entries should be returned to 1479-4th Avenue by January 22.

The directory continues to serve as a valuable tool for identifying public service resources on and off campus. It also recognizes individuals' efforts and is evidence of UCSF's contributions to the community.

MELVYL, a new on-line computer system for finding books, is now in use in the UCSF library. The new system indicates whether a book is available in the UCSF Library or any other library in the nine-campus UC system. At the present time UCSF has four public terminals that determine the location of more than 1.3 million books.

The system is named after Melville Dewey, the father of the modern numerical classification system for books, the Dewey Decimal System, which has been in use in American libraries since 1876.

Instruction booklet accompanying each terminal includes a "look up mode" to simplify the search process.

The Outpatient Improvement Program, Inc. at SFGH has received a six-month grant of $155,000 from the State Department of Health Services, Maternal and Child Health Branch, to help augment perinatal health services in Southeast S.F.

The grant will allow provision of special health and social services to an estimated 250 high-risk pregnant women and infants who receive care at the SFGH Teen Clinic, Health Centers No. 3 and 4 (Silver Avenue and Chinatown) and the Southeast Health Center. Such services were formerly provided under a state-funded UCSF/SFGH Perinatal Health Project which ended in June, 1980. For further information contact Jane Holt at 821-5106.

A new course on effective scientific writing is being offered to all UCSF faculty and staff on Wednesdays, January 13 to March 10, 4 to 6 p.m. in Room N 417.

The course is entitled "Effective Scientific Writing: The Journal Article," and is designed for investigators who would like to improve their ability to write scientific articles for publication in professional journals. Tuition is $200. For registration information call x2894 or x2483; program information call x4251.

The new 1981-1982 campus telephone directories are now available at the Telecommunications Office on the G Level of Millberry Union. The office is open from 9 a.m. to noon and 1 to 4 p.m. One free directory is provided for each campus telephone. Additional directories can be purchased at $2 each. An account/fund number must be given to the Telecommunications Office when picking up directories. For further information call x1581.

Marion B. Sulzberger, clinical professor emeritus, Dermatology: Recipient of a special award and tribute from the officers and trustees and members of the Dermatology Foundation.

IN MEMORIAM

Selma H. Fraiberg, internationally known child development expert and head of the Infant/Parent Program, SFGH. A professor of Child Psychoanalysis, departments of Psychiatry and Pediatrics since 1979, Fraiberg previously taught and conducted research at the University of Michigan. She was widely recognized for her seminal contributions to the understanding of infant-parent relationships, particularly how babies in impaired relationships with adults develop complex defenses in infancy. Several weeks ago she was honored with the Dolley Madison Award of the National Center for Clinical Infant Programs.

Carl P. Regli, professor & chair, Restorative Dentistry. For more than 40 years he played an important part in the history of the School of Dentistry. A graduate of UC-Berkeley in 1935, he received his DDS from UCSF in 1939. He became assistant clinical professor of Dental Prosthesis in 1945, chair of the Division of Prosthodontics, 1964-1977 and chair of Restorative Dentistry from 1978 to the time of his death.

Herpes virus — its treatment and current scientific information about it — will be discussed at a weekend symposium, January 16 and 17 in Cole Hall.

On Saturday, the program is directed at health practitioners who want to increase their understanding of this disease, its complications, and better management of the herpes patient. On Sunday, the program is designed for the lay public, herpes patients, family and friends. Discussion will focus on understanding the various aspects of the disease and ways to effectively handle the dramatic impact of recurrent attacks on a victim's day-to-day life.

Infections caused by the herpes simplex have now reached epidemic proportions. In the U.S. alone, it is estimated that more than 10 million people suffer from genital herpes and many more from labial herpes, affecting the lips, mouth and face.

Co-sponsors of the symposium are Continuing Education in Health Sciences and HELP, a service program for herpes victims which is an affiliate of the American Social Health Foundation, based in Palo Alto.

Tuition fee is $30 for the lay public, $75 for health practitioners. For further information call x3904.
